

PROGRAM TOPICS ANNOUNCED FOR THE 2009 NHG FALL CONFERENCE

The NHG Fall Conference, *Discover Your Roots: Discover Yourself – The Search for Lost Treasures* is planned for Saturday, 24 October 2009 from 9:00 A.M. to 4:00 P.M. NHG members and the general public are invited to this day-long family history program for all interest levels, featuring speakers Paula Stuart-Warren, CG, of Minnesota, and Sandra MacLean Clunies, CG, of Maryland.

The NHG Fall Conference will be held at Christ Episcopal Church, 5910 Babcock Blvd., Pittsburgh, PA 15237, near Northway Mall. Plan now for what sessions you will attend to gain the most from your conference experience. For more details and to register, go to this site: <http://www.NorthHillsGenealogists.org>.

Paula Stuart-Warren, CG, will present the following sessions for the NHG Fall Conference:

Lord Preserve Us! Church Records for Family History Research - Names, dates, places of new and former residences, relationships, burial locations, and other details can be learned in the treasures of church and related records, which often pre-date civil vital records.

NUCMC and Its Cousins: Keys to “Lost” Ancestral Records – An important aid to finding diaries, circuit riders’ and business records is in the National Union Catalog of Manuscript Collections via the Library of Congress and containing over 100,000 items.

Tho’ They Were Poor, They May Have Been Rich in Records – Our poorer relatives are traceable, and due to needing assistance may have left extremely helpful records.

A Baker’s Dozen: Easy Ways to Begin Writing Your Family History – Learn ways to get your family history in print without a lot of strain. It’s not as daunting a task as you might think, and your family will treasure it!

Sandra MacLean Clunies, CG, will present two sessions for the Fall Conference:

Jump the Pond: Tracing Immigrant Families Strategies for using U.S records to get back to one’s country of origin will be explained, using Canadian and Scottish examples.

Research in Washington, DC from Home – Learn how to access the wonderful treasures in the National Archives, Library of Congress, DAR Library, and other facilities from your home or in preparation for a trip.

WHO WE ARE NORTH HILLS GENEALOGISTS

We are a group of genealogy enthusiasts who meet on a regular basis to assist one another in establishing our family histories. We meet on the third Tuesday of every month, except December, at the Northland Public Library, 300 Cumberland Road, McCandless Township in the North Hills of Pittsburgh, PA. Tip Time begins at 6:45 P.M., and our general meeting commences at 7:00 P.M. Meetings are free and open to the public.

We publish a newsletter ten times a year for a nominal membership fee of \$15.00 annually. The subscription year runs from August to June, but anyone wishing to join the North Hills Genealogists mid-year will receive back issues of the newsletter for that membership year. Previous years' newsletters are also available for purchase, each containing helpful hints for beginners and for experienced genealogists.

The North Hills Genealogists Board meets at 7:00 P.M. on the first Tuesday of each month in the Conference Room of the Northland Public Library. The Board meeting is open to all members of the North Hills Genealogists organization. Consider joining us this year!

PRESIDENT'S CORNER

Here we are moving into the summer months again, the time of year when, among many other events, family reunions are typically held. The Williams' family reunion is traditionally held the first weekend in June in Erie, and this year was no exception. Once again, Florence Williams – the matriarch of our clan – was there. She will be ninety-nine years old later this year and spent most of the reunion grilling us about relatives that could not attend.

There were also some new attendees who provided some great adds to the family tree. One of them was a third cousin who lives in the state of Washington – Nyla Urch Dartt. She is a descendant of the oldest child – Jane Williams – of my great-great-grandparents. Jane Williams married Joshua Urch and, just to add to the confusion, her younger sister Ann married Joshua's brother James Urch. (As a side note, Jane's other sister married Thomas Carr, the brother of Eleanor Carr – who was married to their brother John Williams!)

Anyway, I had never met a descendant from either line of Urch's, so I was definitely excited about this gathering. Nyla had made contact with us about a year ago through the Internet. Capping a lot of correspondence, she decided to coordinate a trip to the East Coast to visit her daughter to coincide with the family reunion. Neither she nor her daughter had ever been in Erie before. It was a great visit! She brought along much of the results of her research over the years and a number of old photographs to flesh out her family. We went to the local cemetery and found the marker of her great-great-grandparents and various other ancestors. We exchanged tales of family lore and found that there were stumbling blocks that both of us had encountered.

Upon parting, we made the commitment to stay in touch and to continue to share research. Both Nyla and her daughter want to get back for the
(continued on page 93)

PRESIDENT'S CORNER

(continued from page 92)

future reunions, and we are hoping to find some other Urch's (and maybe Carr's) to add to the mix.

The drive home from Erie gave me the chance to reflect on the past two years. This will be my last column, as a new president will be taking over in August. I would like to thank everyone for allowing me the privilege of being your president for the last two terms. It was a very stimulating time and went by unbelievably fast. It was a great learning experience, and I would like to especially thank the A-Team Board of Directors who steer the North Hills Genealogists. The guidance and insight was extremely valuable, and I can guarantee that your organization is in good hands with that Board.

I would also like to wish the best of luck to the incoming officers. May your experience be every bit as rewarding as mine was.

Finally, I would like to also wish our readers the best of luck with your endeavors, and leave you with the following quote from Randy Pausch of *Last Lecture* fame. While he was not referring to genealogy, it seems appropriate and perhaps will help when you encounter some frustrating moments.

"The brick walls are there for a reason. The brick walls are not there to keep us out. The brick walls are there to give us a chance to show how badly we want something. Because the brick walls are there to stop the people who don't want it badly enough. They're there to stop the other people."

Happy Hunting!

~ Dave

Newsletter Editor Needed for NHG

The North Hills Genealogists Board is looking for a volunteer to serve as the next NHG Newsletter Editor. You will create and edit ten newsletters from August, 2009 – June, 2010. There is no newsletter in December. For more details about this opportunity, contact Sue Ennis (724) 452-3176 or any NHG Board member by June 30th.

YOUR QUESTIONS ANSWERED

by Amy E. K. Arner

At each meeting people can submit questions on index cards. Each month, we will answer one or two questions in the newsletter.

Question: Is there a source for death certificates before 1909 for Allegheny County?

Answer: Pennsylvania started requiring death certificates in 1906. The PA Department of Health's Division of Vital Records in New Castle holds the death certificates. Their web site has information on how to order certificates: <http://www.dsf.health.state.pa.us/health/cwp/view.asp?a=168&Q=202275>. There are some additional resources created at the local level. These resources consist of short entries in ledger books and so are death records, not death certificates. The following are available on microfiche in the Pennsylvania Department of the Carnegie Library of Pittsburgh:
City of Pittsburgh Death Registers (1870-1905)
Allegheny City Death Registers (1875-May 1907)
Allegheny County Death Registers (1874-1903)
McKeesport Death Registers (1887-1905)
Sewickley Death Registers (1894-1905)

Except for the Sewickley death registers, these records are also available on microfilm through the Family History Library.

TIPS FOR USING THE 1869

HUNGARIAN CENSUS

John Matviya will discuss a vital resource in June. Perhaps the most important tool in finding one's ancestors from Eastern European countries is the 1869 Hungarian Census. This census is not just about Hungarians and Slovaks; it is the most important and useful census records for people from much of the old Hungarian Empire including present-day Hungary, Slovakia, Yugoslavia, Bosnia, Herzegovina, Ukraine, Romania and other pre-1918 Hungary territories. The Compromise of 1867 established the dual-monarchy of Austria-Hungary, which in 1869 conducted the "First Complete Population Census of Hungary and Austria."

Although there had been many censuses taken by the Kingdom of Hungary of its subjects, prior to the emancipation of the peasants (1858) only the names of landowners were listed. The 1869 Census is of the greatest value to the genealogical researcher, as it required all residents to be enumerated and is the most comprehensive of all available census, including personal information about each family member and about their dwellings and livestock. The Census records, written sometimes in Hungarian or Latin or German, can be intimidating at first. This presentation will show how to interpret the information and use it to build your ancestors family tree.

John Matviya has been a family genealogist for more than 30 years, splitting his personal research between his mother's "English" ancestry and his father's "Slovak" side. Currently he is President of the Derry Area Historical Society in Westmoreland County where he also serves as Archivist/Genealogist. Having made three visits in the past ten years to his paternal grandparents' villages in Eastern Slovakia, John has partnered with renowned

Slovak researcher Lisa Alzo in publishing articles and making presentations about "finding" one's Slovak ancestors.

Mr. Matviya was born and raised on the North Side of Pittsburgh, is a 1973 graduate of Indiana University of Pennsylvania, and prior to his retirement in 2007 was an environmental program manager for the PA Department of Environmental Protection. John and Chris, his wife of 35 years, have raised three children and live in New Alexandria, PA.

FROM THE ARCHIVES TO YOUR HOME: HISTORICAL MATERIALS AT YOUR FINGER TIPS

The University of Pittsburgh Library System is a leader in providing access to digital resources. These include collections of rare books, manuscripts, prints, maps and photographs. Many of the materials available online, including census records, pertain to the history of Pittsburgh and Western Pennsylvania. While students and faculty of the University benefit by these materials being online, so do countless genealogists, historians, and other researchers. This presentation will include an overview of the Archives and Special Collections Departments, while providing a more in-depth look at some of the recent work to create better access to little known historical materials, such as the Allegheny County Coroner Case Files, which date from 1887 to 1976.

Michael J. Dabrishus is a native of Harrisburg, Pennsylvania. He has a B.A. in history from Western Michigan University and a master's degree in library science from Wayne State University, where he concentrated his studies in archival administration. His first professional position was as an archivist at the Texas State Archives, where his primary responsibilities centered on creating access to historical records and overseeing a very active research room that **(continued on page 95)**

frequently included genealogists. In 1984, he accepted the appointment as Head of the Special Collections Division for the University of Arkansas Libraries, Fayetteville. Their manuscripts collections doubled in size during his time there. In August, 2002, he became Assistant University Librarian at the University of Pittsburgh. He has administrative oversight of the Archives, Special Collections, Preservation, Music Library, Fine Arts Library, Business Library, and Center for American Music, which houses the major collection of Stephen Foster materials. In addition to being a member of many professional library, archival, and historical associations, he is an appointed member of the Pennsylvania State Historical Records Advisory Board.

NHG ANNOUNCES SURNAME FILE PROJECT

Submitted by Al Hartman, NHG Vice-President

A Surname Database is being constructed for members of the North Hills Genealogists. Members are encouraged to use the form below to provide all surnames of their ancestors. This database will serve as a resource for NHG members. When a surname from another member matches your surname, you will be contacted and given the other member's name and contact information. At that time you can contact the other member to see if you share a common ancestor. You might also consider adding the AKA (also known as) names used by your ancestors to the surname database.

Any names and information listed in the Surname Database will be kept private and only given to another member who shares a common ancestor. You can add names at any time. Fill out the form below and turn it in to Al Hartman, the Vice-President of NHG, who will be maintaining the Surname Database. Bring your Surname form and any questions to the next meeting.

THIS MONTH'S PROGRAM - Tuesday, 16 June 2009 USING THE 1869 HUNGARIAN CENSUS

Speaker: John Matviya

Perhaps the most important tool in finding one's ancestors from Eastern European countries is the 1869 Hungarian Census. This census is not just about Hungarians and Slovaks; it is the most important and useful census record from much of the old Hungarian Empire. Avid genealogist and Pittsburgh native John Matviya will discuss this census in detail and explain ways to extract useful information.
